PROFESSIONAL SUMMARY

MCA student and aspiring SOC Engineer focused on cybersecurity, threat monitoring, and incident response. Skilled in analyzing security events, identifying vulnerabilities, and utilizing modern security tools to protect systems from cyber threats.

TECHNICAL SKILLS

Security Tools & Platforms: Splunk, Wazuh, Microsoft Defender (EDR), Wireshark, Osquery

Cybersecurity Concepts: SIEM, Incident Response, Threat Detection, Log Analysis

Frameworks: MITRE ATT&CK Framework, Cyber Kill Chain, Security Monitoring Practices

Systems & Networking: Networking Fundamentals, Windows Security, Virtual Machine Environments

Programming Languages: CSS, HTML

INTERNSHIP

Web Development Internship | JCS Infotech

August 2025 - September 2025

- Successfully completed an internship program in Web Development with a performance evaluation of "Excellent".
- Assisted in developing and structuring user-friendly web pages using HTML, CSS, and basic JavaScript to improve frontend functionality.
- Collaborated with the technical head to understand project requirements and optimize web performance.

PROJECTS

Windows Binary Threat Analysis Using Static Techniques

- Conducted static analysis of Windows executables to identify potential security threats.
- Analyzed indicators of compromise (IOCs) to classify files as malicious or benign.
- Studied Living-off-the-Land Binaries (LOLBINS) and their role in attacker techniques and detection strategies.
- Utilized Python for analysis and automation tasks.

CERTIFICATIONS

Endpoint Security - Cisco Networking Academy

May 29, 2026

- Evaluated endpoint security and analyzed malware files extracted from packet captures.
- Configured simulated networks according to organizational requirements.
- Documented and recommended threat mitigation measures for common and emerging network threats.

Practical Security Investigation with Splunk, Wazuh and Osquery - Udemy

- Gained hands-on experience in log analysis and security monitoring, identifying suspicious activities and understanding security event patterns.

EDUCATION

Master of Computer Application (MCA)

2024 - 2026

Anna University (Udaya School of Engineering) | CGPA: 8.0 (Present)

B.Sc. in Physical Education

2021 - 2024

Manonmaniam Sundaranar University | CGPA: 7.70
